Personal precautions	Ensure adequate ventilation, especially in confined areas.	
Environmental precautions		
Environmental precautions	See Section 12 for additional ecological information.	
Methods and material for containme	ent and cleaning up	
Methods for containment	Prevent further leakage or spillage if safe to do so.	
Methods for cleaning up	Dike to contain. Pick up with absorbant material. Put in suitable container for disposal.	
7. HANDLING AND STORAGE		
Precautions for safe handling		

Advice on safe handling DANGER: Concentrated, caustic material. Avoid contact with eyes, skin and clothing. Do not breathe mist or vapors. Addition of product to water will cause a rise in temperature. If added to water and allowed to concentrate in one area, or added too rapidly, or added to hot water, steam, spattering, or eruption of hot solution may result. Mix only with cool water. Keep off wood, painted surfaces, and floor coverings. Read and follow label instructions. Do not reuse container. Keep out of reach of children.

## Conditions for safe storage, including any incompatibilities

Storage Conditions	Keep containers tightly closed in a dry, cool and well-ventilated place. Keep/store only in original container. Empty containers may retain product residue, follow SDS/label precautions even after container is emptied.
Incompatible materials	May react violently with strong acids. Avoid contact with aluminum, zinc, other soft metals or galvanized metals. Reaction will generate hydrogen gas. This gas is flammable and/or explosive in presence of ignition source.
